

Below is a listing of butchers licensed by the Province of New Brunswick who have agreed to process deer meat that has been donated by hunters for distribution to the hungry. Hunters will be required to complete a "Deer Donation Log" and provide deer tag #, address, telephone number and signature. Completion of the log authorizes FHFH to pay the butcher. Hunters are to ensure that deer donated are free of spoilage, including proper field dressing and rapid transportation to the butcher. The finished product will be ground venison in 5 lb. packages. A hunter donating only a portion of his/her deer is responsible for the processing fee. We are currently attempting to make arrangements with other government inspected butcher shops throughout the Province to process donated deer and this list will be updated regularly. For more information please contact Caroline Trueman at (506) 433-9096.

A & K Meats
